* A free Photoshop tutorial, *_Photoshop Elements 8: Create Magical Landscapes_*, is available from [` * _Photoshop Elements 9 For Dummies,_](#) by Bobbi Burns and Trish Kranich, provides an in-depth, step-by-step tutorial for beginning Photoshop Elements users. * *_Photoshop Elements 8 For Dummies,_* by Bobbi Burns, provides an in-depth, step-by-step tutorial for beginning Photoshop users. * In addition to the previously mentioned books, there is a large number of online tutorials for Photoshop Elements at sites like [`www.getstartedtutorials.com`](#). * The following websites have a wealth of tutorials and walk-throughs available to learn Photoshop and how to use it. They also include reviews and insider information: [` and ` * _Photoshop CS6 For Dummies,_](#) by Pamela Balan, provides a great online learning tool on how to use the program and a great way to "hire" the author as a one-to-one tutor. * *_Photoshop Elements 8 For Dummies,_* by Bobbi Burns, is also a great, step-by-step tutorial for the program. ## Working with Video Video editing is a bit more complex than working with still images in Photoshop and Elements. When working with video, you may use one of the following programs: * Adobe Premiere Pro (for Windows) * Apple Final Cut Pro (for Mac) * Apple Aperture (for Mac) * Corel Aftershot (for Windows) Premiere Pro and Final Cut Pro may be a bit overkill for what you need to do with video, but Elements is a great video editor, and Aperture is very helpful. You can always add a DVD to your computer and edit it using one of these programs if you want to simply edit the video and not make any other changes. You don't need a lot of technical knowledge to get started with video editing in any of the three programs. However, you do need some basic knowledge about moving and copying clips, working with transitions

Should I buy Photoshop Elements? I use Photoshop for my graphic design projects and have long used Photoshop. The Photoshop Elements product is for hobbyists who do not use Photoshop, graphic designers, photographers, web designers, Discord emoji creators and meme-makers all use Photoshop to edit images, create new high-quality images, or both. Adobe Photoshop has a pretty rigid brand identity with characteristics like the recognizable "black and white" logo and a backdrop of stylized Type 1 fonts. I've never been a fan of the black-and-white look and am not the biggest fan of their design. Yup, they have a whole list of iffy fonts.

The software has its perks, though. I use it daily as a hobbyist and teacher, and it has a lot of features that I have come to rely upon when editing photos in the dark. It uses the GIMP drawing programs as a base and provides a strong drawing program as well. Bottom line, there are a lot of really useful features inside Photoshop Elements, but for the level of power I would expect, it has a handful of shortcomings. No, I should buy Photoshop Elements rather than Photoshop. Here's why... The new Adobe Photoshop is a complete re-thought of a traditionally rigid graphic software suite. Selling in the launch market are the fully new 2016 Photoshop lineup which includes Adobe Stock for the first time. The lineup also includes all the professional tools you would expect from Photoshop such as vectors, layers, channels, palettes and a new 3D filters. The Photoshop Elements is a well-known free alternative to the Photoshop. However, there are a lot of new features in the new Photoshop that are missing in the Photoshop Elements. The biggest and most important change is that Photoshop now has a modern, streamlined design. The updated Adobe Photoshop suite no longer relies on the old software that made them so iconic. Instead, users can pick from several new versions of Photoshop with fully modern and slick user interfaces. What's New in Photoshop Elements? The updated Photoshop Elements offers a more modern user interface that gives you more options for sharing your work. It's easier to use the software with the new design and with its smaller user interface. You can choose between the new Adobe Photoshop in Mac or Windows and Photoshop Elements in Mac and Windows. A new study has found that, contrary to popular belief, 30 percent of Americans are intolerant of unpopular viewpoints. Moreover, these unfortunates admit to basing their political opinions on their religious beliefs. The survey was conducted by the Advanced Research Projects Agency-Energy (ARPA-E) at the U.S. Department of Energy. Sponsored by the department, ARPA-E is tasked with developing energy technologies to meet the nation's energy needs. An overwhelming 60 percent of those polled supported the political views they themselves hold. The remaining 40 percent of the respondents were classified as intolerant; 30 percent of whom said they were intolerant of "extreme views." However, in the religious subgroup, 41 percent of the respondents said they held intolerant views. Some respondents said they were intolerant of "extreme" views on gay marriage, abortion, and gun control; others said they are intolerant of "extreme views" on climate change, the military budget, or the size of government. According to the study, the intolerance of those who hold the positions they do may have something to do with the fact

What's New in the?

Updated: As F1 races towards its annual calendar shake-up in 2021, a series of potential new F1 races are in the pipeline, and a new Grand Prix is currently set to debut in Kuala Lumpur,

Malaysia. Speaking at a press conference last week, with his eye on the race calendar shake-up that will come into effect in 2021, F1 Commission chairman Chase Carey confirmed that the series is considering adding an extra race in the middle of the season. F1 is set to see four Grands Prix drop from its current 2020 calendar, with Russia, Austria and Great Britain set to be dropped in favour of a new race in Vietnam, while the Bahrain GP becomes the first Gulf State entry. Now, as Carey reveals that a race in Canada is also in the planning, he has revealed that a number of cities in North America are also in line for a potential F1 race, with a potential two-venue race in Atlanta and Charlotte set to be considered. "I think we're looking at the mid-season race, probably in North America," Carey told the F1 media conference last week. "But not necessarily Charlotte, but certainly the Southeast, Atlanta, or maybe Charlotte." Several F1 venues in the Southeast are on the radar, including Atlanta's new baseball stadium. "I love that idea," Carey stated. "It's a great place, a big ballpark. There would be a lot of interest in that." However, he emphasised that the plans to add a race in the middle of the season would require agreement from the commercial rights holder, who is yet to indicate its support to the plans. "We haven't announced anything yet, but we are exploring it," Carey said. "We are looking at it, and you know what, it depends on where we are in the schedule... I can't tell you that because of the commercial rights holder." Carey and F1 are set to meet with NASCAR this month to discuss their future. Carey revealed that the two parties haven't met this year to discuss F1 and NASCAR's future together, with Carey saying there are "further conversations and planning to do so in 2020". "We've talked. We're friends. And
